About Me

I'm a learner who's willing to try my hand at various pursuits. I'm a passionate and responsible individual. I am open to new ideas and people and intend to share the better parts of me with others. My sole aim along my journey is to contribute towards a world that is ethical and inclusive of all.

Skills

- *Observation* - I have the ability to notice and understand things happening around. It helps me navigate social interactions, make informed decisions, and solve problems more effectively. It makes me more perceptive and insightful in various situations.
- *Decision Making* - It helps me in selecting the course of action that aligns best with your goals and values. It brings me more confidence.
- *Communication Fluency* - It is a valuable skill that helps me navigate through various social and professional settings with confidence and effectiveness. It enables me to build strong relationships and convey my ideas persuasively.
- *Multi-tasking* - I have the ability to switch between tasks quickly and efficiently, keeping track of deadlines and priorities. It allows you to maximize productivity and efficiency, making the most of my time and resources.
- *Time Management* - I've really become the captain of my own ship when it comes to managing my time. I prioritize what's important and achieve my goals. I have control over how I spend my days and that I can accomplish so much when I put my mind to it.

Achievements

- Secured 1st rank in a techno speak event which is a ppt based competition.
- Participated in several debate competitions.
- Participated in several Olympiads.
- Also won a rank in Sanskrit shloka competition.
