

Software Tester Assessment

Test 1 (2 hours)

Ensure that the <https://redchief.in> Online store functions correctly, is user-friendly, and meets performance and security standards.

Testing Scope:

- Homepage
- Product Pages
- Shopping Cart and Checkout
- User Account Management
- Search Functionality
- Performance and Load Testing
- Security Assessment

Reporting: Generate a comprehensive test report summarizing the test cases executed, issues found, and overall assessment results.

Hint: use template, screenshots, videos, etc. for better report.

Test 2 (2 hour)

Please answer the following questions under a one document. Reference website: <https://www.relaxofootwear.com>:

1. Create a DFD for ecommerce website

Test Output

- Share both tests under a single zip file to respective HR email and mark hr@tech2globe.com in the cc

All the best 🍀
